A SIMPLE AI WORKBOOK FOR BUSINESS OWNERS

For business owners who want a clear next step.

More Clients. Less Busywork.

Find one thing that slows your business down. Make a simple plan to fix it this week.

YOUR FINISH LINE

One problem to work on. One message or checklist. One plan for the next seven days.

START HERE | ABOUT 20 MINUTES

01 **Pick one problem**

Check what is hard and how much time it takes.

02 **Choose one exercise**

Find people to help, stay in touch, or make work easier.

03 **Try your plan**

Write down what happens. Keep what works. Change what does not.

Type in the boxes, or print and write. Save a copy to keep your answers.

Where does your business need the most help?

Check the boxes that sound like you. Then pick one area to work on this week.

A FIND PEOPLE WHO NEED MY HELP

- [ ] It is hard to explain who I can help.
- [ ] People I know are not sure whom to send to me.
- [ ] I spend time talking with people who do not need my service.

B STAY IN TOUCH

- [ ] I have good chats, but we do not agree on what to do next.
- [ ] I forget to get back to people.
- [ ] I send a price or some information, then lose touch.

C LESS BUSYWORK

- [ ] I copy, type, or look for the same information over and over.
- [ ] The same job takes too long because we do it a new way each time.
- [ ] Small mistakes mean we have to do the work again.

Pick the problem that matters most right now. If you are not sure, pick one that happens often and is easy to start working on.

A, B, or C	Why this matters now

How much time does it take?

Write down what happens now. If you do not know, watch the task once and take notes.

The one problem I want to improve

What starts the job? What do I do? How does it end?

TIME SPENT EACH WEEK

Minutes each time

Times per week

Hours per week

Example: a job takes 12 minutes. You do it 15 times a week.
That adds up to 180 minutes, or 3 hours each week.

If the job took half as long: you would get 90 minutes back each week. You could use that time to help clients, make calls, or finish other work.

IF YOUR GOAL IS MORE CLIENTS

Count simple things: messages you send, replies you get, or calls people book. These numbers help you see whether your new plan is working.

What happens now? Example: I sent 10 messages and got 2 replies this week.

Start with one small change. You can build on it later.

Ask for an introduction.

Use this page if you chose A. Write a message for someone you know. Ask if they can connect you with a person who needs your help.

1. NAME A PERSON, A PROBLEM, AND A RESULT

Who I help

A problem they have

How I help them

A MADE-UP EXAMPLE

I help busy shop owners keep track of people who ask about their services. We make a simple list so they know whom to call next.

2. COPY THESE WORDS INTO YOUR AI CHAT

Help me write a friendly message to someone I know. I help [who] with [problem] so they can [result]. Ask me up to three questions if you need more details. Then write a message under 80 words. Ask if they know someone I could help and if they would connect us. Make it easy for them to say no. Do not make up facts or promises.

3. MAKE THIS MESSAGE YOUR OWN

Hi [Name], I am looking to meet [type of person] who needs help with [problem]. I help them [what you do]. Do you know anyone like that? If so, would you be happy to connect us? I can send a short note you can pass along.

This week: choose five people you know. Write a message that fits each person. Check every AI draft before you send it. Write down who replies.

CHOICE B / STAY IN TOUCH

Keep a good chat going.

Use this page if you chose B. Write a short message to someone you have already spoken with.

1. CHOOSE ONE REAL CONVERSATION

What did the other person say they wanted help with?

What small next step would be useful to them?

2. COPY THESE WORDS INTO YOUR AI CHAT

Write a friendly message under 90 words. Use these notes from our chat: [add notes with names and private details removed]. Mention what the person wants help with. Suggest one small next step. Use simple words. Do not make up facts, promises, or things we agreed to. If you need more details, ask me first.

A MADE-UP EXAMPLE

Hi Jordan, you said that emails from new customers sometimes get lost in your inbox. Would you like to look at one together and find an easier way to keep track? If now is not a good time, just let me know.

3. KEEP A SIMPLE FOLLOW-UP LIST

Name | Help they need | When we last spoke | What to do next | When
Start with five people. You can use their initials instead of full names.

Count replies and next steps. If someone says no or asks you to stop, respect that.

CHOICE C / LESS BUSYWORK

Make a job easier with a simple checklist.

Use this page if you chose C. Pick a job you do often. Make a list of steps you can use again.

A job I do often and what starts it

Information needed

What a good finished result looks like

COPY THESE WORDS INTO YOUR AI CHAT

Help me make this job easier: [job]. I start when [what happens]. I use [tools and information]. Here are my steps: [steps]. The finished work should look like [result]. Make a checklist with no more than seven steps. Show where I repeat work or need more details. Tell me what a person should check. Suggest one small change using tools I already have. Do not send messages, spend money, or delete anything.

EXAMPLE - A NEW CUSTOMER SENDS A QUESTION

01 Save the question in one place.

02 Check what they need. Note any missing details.

03 Write a helpful reply and suggest a next step.

04 Check the facts, price, and email address before sending.

05 Write down what to do next and when to do it.

Try it once: use a timer to see if the checklist saves time. Check for mistakes, too. Remove names and private details before sharing an example with AI.

Your plan for the next week

Try one small change. Write down what happens so you can see if it helps.

The problem I chose and the change I will try

The message, checklist, or list I will use

A SIMPLE WEEK

DAY 1	Pick your problem. Write down what happens now.
DAY 2	Make and check your message, checklist, or list.
DAYS 3-5	Try it with a few people or a few small jobs.
DAY 6	Write down what happened and how long it took.
DAY 7	Decide: keep it, change it, or stop it.

What I will count and my goal

The date I will check my results

What happened? What will I keep, change, or stop?

Bring this page to your call with Vlad. It will help you explain what you tried, what worked, and where you would like more help.

YOUR NEXT STEP / $497 STRATEGY CALL

Make a plan to win your next client.

Spend one hour with Vlad Gutenmakher. Your AI Strategy Session costs $497.

You do not have to figure out every step alone. Bring your workbook. We will look at your business and make a clear plan for what to do next.

IN OUR ONE-HOUR CALL, WE WILL:

Choose the people you can help and what to offer them.

Decide which problem to fix first.

Plan what to say and where AI could save you time.

Write down your next steps and how to check your progress.

One new client won with this strategy can more than pay for your session.

Use your plan to reach the right people, start useful conversations, and take the next step toward a new client.

Leave with a clear plan you can start using right away.

What you keep from a new client depends on your price and costs.

BOOK YOUR 1-HOUR STRATEGY SESSION - $497
